What sets us apart?

Our approach is informed by sure-footedness while navigating complexity, thinking out of the box and engineering innovative solutions for our clients.

We pride ourselves on delivering consistently top-notch quality advice to our clients, both cross-border and domestic. With a deeply analytical understanding of Indian law and experience of the market, combining an industry-wide outlook with a detail-oriented eye, we effectively ascertain risks and provide practical advice for successful outcomes. But what truly sets us apart is our collaborative approach to work.

AN ENVIRONMENT OF COLLABORATION

We are determinedly client-centric. Because we recognise that the best solutions are derived from viewing different perspectives. This means bringing together multiple lawyer teams to contribute cohesively to client matters. Our all-equity lockstep model, unique in India, enables our people to collaborate and focus on client outcomes, taking away the internal pressures associated with traditional law firm setups. Our people share resources, knowledge, and expertise with colleagues generously to benefit clients and the firm.

We believe in prioritising the firm's future through mentoring junior lawyers, nurturing client relationships, and strengthening governance. This benefits clients, too, by offering access to a broader range of expertise and perspectives within the firm, leading to seamless and more comprehensive solutions and stronger relationships over time.

TECHNOLOGY-LED INNOVATION

Our Digital Innovation Group attempts to realise the future of the practice of law where AI and other advanced technologies can play a significant role in making our professionals future-ready and moving them up the value chain. We intend to achieve this by infusing automated tools and intelligent systems to perform day-to-day activities for every function at the firm, leveraging firm data and unlocking a 360-degree empowerment that is hitherto unseen at law firms. We are investing significantly in digital technologies, especially generative AI tools like Microsoft Copilot, Machine Learning and automation to improve the efficiency and quality of legal work, manage client relationships and evolve client experience.

What sets us apart?

INVESTING IN OUR PEOPLE

We believe that our people are our biggest asset. We take pride in attracting the top legal talent in the country and have consistently been ranked as the best place to work by lawyers. We strive to nurture and groom talent, thus shaping the future of the firm and supporting clients and stakeholders in the best, most optimum ways.

The Trilegal Academy for Excellence (TAE) is our in-house long-term learning and development platform, managed by dedicated lawyers. It is designed to give our lawyers exclusive access to world-class professional development workshops conducted by highly qualified (external and internal) international lawyers and professionals. Junior lawyers receive intensive entry-level training, designed and customised to develop both technical and soft skills across four key areas – legal writing, professional skills, legal knowledge (with practice-based learnings built-in), and accounting and finance. Senior lawyers are groomed to take on client management and operational responsibilities, paving a clear path to Partnership.

Career development at Trilegal is guided by our commitment to DEI and comprises frameworks including equal opportunity, pay parity, structured feedback mechanism, and programmes to enable job rotation, skilling, collaboration and opportunities for pro bono work.

MINDSET FOR SUSTAINED GROWTH THROUGH GOVERNANCE

We are the only Indian Tier 1 firm that is professionally managed and not family-owned. Trilegal's governance structure is designed to support inter-generational transition and institutionalise a mindset of sustained growth. The firm has an elected a two-member Management Committee, which is aided in its responsibilities by other focused groups such as the New Practice Committee, the Risk Committee, the Opinions Committee, and the Conflicts Committee. We are compliant with local and international legislation and best practices in ethical business conduct and client data management.

Our firm's core operations are fortified by a team of professionals who handle general administration, business development, international firm relations management, information technology, finance, talent management, learning and development, and strategy.

What sets us apart?

COMMITMENT TOWARDS COMMUNITY

Trilegal's lawyers actively participate in pro bono work that resonates with our values and commitment to social responsibility. These initiatives include legal guidance to non-profit organisations, supporting social causes and strengthening local legal ecosystems. We are associated with organisations, including the Netherlands-based NGO Ocean Cleanup, Iprobono, and Dasra. We are also patrons of the Agami Idea Prize.

Since December 2020, we have partnered with CSA, which works to uplift the lives of children in institutional care. As part of our engagement, Trilegal has adopted multiple Child Care Institutions (CCIs) in rural Maharashtra, and provides financial aid and knowledge sharing for the holistic development of children in these CCIs.

CONSERVING THE ENVIRONMENT

Our goal is to be climate positive by 2030. To achieve this, we work with Smarter Dharma, a leading climate advisory organisation, transitioning to green practices and alternatives across our functions and departments. From monitoring our carbon footprint, and building a green supply chain for infrastructure development, to facilities management, sustainable business travel, paper and printing, and overall people experience, we are acutely cognizant of our responsibilities towards the planet.

We are also associated with leading industry body associations such as FICCI's ESG Committee, Impact Investor's Council (IIC), NITI Aayog and Observer Research to create awareness and promote sustainability goals.

Environmental, Social, And Governance (ESG)

Our ESG practice has worked closely with some of the pioneering organisations in the green energy and renewables space, helping them plot a course through legal and business issues around the development and implementation of infrastructure initiatives in India. Our team advises businesses on policy matters, compliance with UN Sustainable Development Goals, waste management, carbon solutions, e-mobility, inclusive finance, affordable housing, green supply chains and climate technology. In tandem with leading investors and sovereign wealth funds, we have helped set up dedicated funds to mobilise finance for green and ESG objectives. We offer expertise in sustainable financing and impact investment, green energy and infrastructure, ESG fund formation, carbon credits transactions, ESG advisory, disclosures and reporting, ESG due diligence, and dispute resolution.

We have a niche focus on crucial legal issues associated with environmental sustainability and climate change. The team advises on and also represents clients in complex, high-stake environmental law disputes before courts and tribunals, including mining-related issues, typically arising out of default in regulatory compliances and allegations of environmental pollution. The team also provides specialised counsel on regulatory compliance, hand-holding clients through complicated environmental laws and regulations. Its expertise extends to advising on environmental impact assessments, pollution control, waste management, and obtaining necessary environmental clearances for projects.

Real Estate

Trilegal's Real Estate practice is an authority in the intricate landscape of property laws in India, assisting clients in significant nationwide transactions. Empanelled by the prestigious Maharashtra Chamber of Housing Industry, we advise several prominent Indian and multinational business houses, funds, investors, lenders, and developers. Our advisory prowess extends to conducting comprehensive regulatory analysis of property laws and regulations, meticulous title due diligences, strategic structuring of property acquisitions, acting on equity and financing transactions involving significant land portfolios, and drafting and negotiation of agreements including property development, acquisition, construction, and project management contracts. Additionally, we specialise in negotiating commercial leases, leave and license agreements, and advising on FDI, REITs, and joint ventures.

Dispute Resolution

Trilegal's all-encompassing dispute resolution practice caters to domestic and foreign clients across a range of large conglomerates, banking and financial institutions, funds, foreign investors, Indian and multinational corporations, and high-net individuals. Our specialty is corporate commercial disputes, having handled large and complex mandates and litigation in the market. Our arbitration practice, for both international and domestic matters, is prolific. Trilegal's expertise extends to regulatory matters within securities law, power, aviation, and oil and gas sectors, offering representation to transmission, distribution, and generation companies, as well as before regulatory commissions.

Our White Collar and Investigations practice offers a wide range of expertise across internal and law enforcement investigations, including bribery, money laundering and other associated economic offences, and representations in associated criminal proceedings. We are also a one-stop shop for insolvency and bankruptcy issues at all levels of the process.

"Trilegal's team is quick to get a handle on the matter, the business and commercial repercussions and is quick to give solutions that work for both the business and the legal teams."

Private Client

Our decades of expertise in advising prominent Indian family businesses, entrepreneurs, and global high-net-worth individuals have helped craft enduring legacies. Our partner-led approach creates immense trust and equips clients with the right tools to address delicate issues like inheritance and family business succession. We are adept at traversing complex domestic and cross-border wealth transfers, family governance and disputes.

We assist our clients in the preparation and execution of their Wills, obtaining probate, setting up private family trusts and family office structures, constructing conflict resolution frameworks, and structuring global wealth. Moreover, we provide counsel to private clients in critical areas like pre-IPO planning, family philanthropic pursuits, and acquiring art and luxury assets. The private client practice leverages the expertise of the host of sector specialists we have across the firm – in family law, real estate, taxation, fund management, and disputes, to provide holistic legal solutions for our valued clients.

Telecom, Media And Technology

Trilegal's market-leading TMT practice is highly regarded for its in-depth understanding of the technological and commercial realities of business. The practice is often mandated by clients in some of the largest regulatory, commercial, disputes, policy, and transactional mandates in the country and globally, from vetting novel business models to avant-garde technology contracts and transactions. These mandates are often at the cutting-edge of AI, IoT, satellite communications, blockchain, fintech, platform governance, data protection, cybersecurity, e-commerce, consumer devices and outsourcing. Our assistance on these mandates provides clients with strategic, bespoke and commercially viable solutions through a judicious blend of statute, contract, market intelligence, and best practices.

The practice is also recognised as a thought leader by both the government and the private sector. The team and its partners provide excellent policy assistance on diverse matters involving various digital public infrastructure initiatives, mapping, and outsourcing, amongst others.
